UNDERSTANDING ADHD

Date: Tuesday January 16th, 2018 7 PM - 9 PM
Location: Evergreen Health Medical Center, Suite Tan 100
12303 NE 130th Lane, Kirkland, WA 98034
Guest Speaker: Drew Konzelman

ADHD is a growing diagnosis that effects 1 in 10 US school-aged children. This talk will help you understand the disorder across the lifespan, how to live with someone who has ADHD, and present a variety of treatment options. We will have a special focus on the use of LENS neurofeedback in the treatment of ADHD and related disorders.

Drew Konzelman is a Mental Health Counselor, and Co-Founder of Novo Life Counseling. Drew Specializes in treating children and adults who struggle with ADHD, Anxiety, and Depression. Novo Life Counseling is the leading provider of LENS Neurofeedback treatment in the Seattle Area and treats children and adults with a variety of different challenges.

With past experience in the corporate and creative world, Drew brings a fresh perspective to the conversation of attention and brain health. Drew Lives in Seattle with his wife and daughter and can be regularly found adventuring around the Pacific Northwest. Drew has completed advanced Neurofeedback training with Ochs Labs in California and Canada, and holds advanced degrees with honors from Pacific Lutheran University, and Northwest University.
